EXPORT

Company Name	PGSOLAR GREENERGY LTD. (74895)
Contact Person	Initial contact to be made via the Federation of Israeli Chambers of Commerce: International Relations Division Email: chamber@chamber.org.il
Website	http://www.pgsolar-greenergy.com
Year of Establishment	2021
No. of Employees	1-10
<i>Offer No.</i>	<i>124762</i>
Summary of offer	Export: Hybrid PV Solar Thermal Panels
<p><u>Description of Offer</u></p> <p>An ultra-hybrid, triple boosting, bi-facial, partly transparent, PV thermal panel. Produces electricity and hot water from both sides, 5 functions in 1 unit, several generations beyond existing technologies. Integrated with a closed-loop water flushing system for dust cleaning of PV panel surfaces.</p> <p>The company has designed and built a revolutionary Triple boosting hybrid BIFACIAL PV and TRANSPARENT thermal solar panel.</p> <p>This hybrid BIFACIAL panel can produce 1080Wp of thermal energy and 550Wp of electric power.</p> <p>Reducing Costs - due to the revolutionary new design features of the hybrid Bifacial PVT transparent "KIT" system, the BPVTPT panel is able to produce more electricity & hot water than any other PVT system currently available, and is also priced to not just compete with other hybrid systems, but is even less expensive than a traditional solar thermal panel.</p>	
Other Information	Longer life span than traditional hot water collectors & PV panels. Integrated vacuum water cooling and water heating system allows installation in the same area of hot water collector.
Potential Partners	CTOs at OEMs which manufacture and install hot water collectors or solar panels.
Target Countries	Central and Southern USA, Mexico, Colombia, Panama, Brazil, India, China, Australia, Central and Southern Europe.

Company Name	Kessler Projects for the World Ltd. (73120)
Contact Person	Initial contact to be made via the Federation of Israeli Chambers of Commerce: International Relations Division Email: chamber@chamber.org.il
Website	www.pongamia.info www.aviation-fuels.com
Year of Establishment	2021
No. of Employees	5-10
<i>Offer No.</i>	124714
Summary of offer	Export/JV: Renewable Energy, Carbon Farming, Genetics, Agro Technics, Advanced Bio-Fuels Production, non-GMO Proteins, Non-Edible Oils
<p><u>Description of Offer</u></p> <p>Offer to partner in the first carbon plantations and advanced biofuels installations in Israel and the Arab Gulf region.</p> <p>Our company, partnering under an Exclusive Partner Agreement with the state of Israel, is engaged in constructing smart, profitable carbon plantations as a source of green energy, advanced biofuels, renewable energy production and non-GMO protein.</p> <p>We utilize innovative technology, following all the global standards for zero emissions, and offer each company a comprehensive, sustainable, practical solution of offsetting emissions and obtaining sufficient carbon credits.</p> <p>Partnering with the State of Israel, the company has signed an agreement to create the first carbon plantation in Israel and develop varieties of oil and protein-rich energy trees and the best model for smart carbon plantation on poor soil and desert conditions. This model will be the basis for high-scale plantations and projects worldwide.</p> <p>We invite companies to cooperate and partner in our activities and secure future needs for carbon credits, advanced biofuels, raw biomaterials for the renewable energy and fuels sector, and non-GMO proteins.</p> <p>Our company offers companies and brands a productive way to become 100% environmentally friendly, not polluting the planet by cleaning all their emissions.</p>	

The plantations planted on poor soils do not compete with agricultural land sources. We are in the process of developing and preparing to register patents regarding a variety of products, the unique production processes, the exact model for smart carbon plantations, desert agrotechnical, and global registration of the PRIME ADVANCED GENETICS of our company and the State of Israel.	
Other Information	<p>Areas of activity:</p> <ol style="list-style-type: none"> 1. Environmental Restoration: Carbon plantations restoring poor land for agricultural use, stopping desertification, restoring damaged ecosystems, absorbing CO2. 2. Renewable energy: Renewable energy sources from non-food raw materials, with the entire supply chain, and production procedures, meeting all policies and ILUC. 3. Food production: Production of non-GMO proteins as human food and animal feed, by using land converted to agriculture, not competing on land or water resources, we offer the polluting companies to become 100% environmental friendly, adopting the zero-emission economy, in a sustainable and profitable, effective, smart solution.
Potential Partners	Companies and brands who'd like to become 100% environmentally friendly.
Target Countries	Spain, Portugal, Italy, France, Greece, Germany, UK, Switzerland, United Arab Emirates, USA, Saudi Arabia, Bahrain, Jordan, India.
